SOPH

arrow change from red to white on hover

Tungsten bold, has spacing between letters, #B8B6BB, name gets cut off at agent, shouldn't go past on right

There is a navy box with a navy>transparent gradient fill from left to right to simulate cards fading out. White border shouldn't be there, just showing you where the box is

colors per agent uploaded in home-page>hex-color-list, sample of card per agent uploaded in home-page>home-page-design-agents
